**MOTION:** In order to promote a perception of a more fair and open governance, as well as to increase members' awareness of Board actions, we of the Grand Council suggest that steps be taken to make certain information more readily available to the populace of the SCA.

Specifically, we recommend that appropriately redacted regular reports from Society Officers and standing committees, as well as any reports from special investigative bodies such as commissions or subcommittees be more widely publicized and distributed.

By appropriately redacted texts, we mean no more editing than the removal of confidential information or for similar legal or privacy purposes.

We also feel that the most obvious available venues for this publication and distribution are the sca.org website and the SCA-Announce list. The aforementioned reports could be made available on the sca.org website and said availability publicized by posting links on the SCA-Announce list.

Vote II -

Please Vote {YES yes Abstain No\_opinion no NO}

**AMENDMENT:** Further, we recommend that the Society Chief Technology Officer examine whether this publication can be performed automatically - perhaps via a Content Management System on the sca.org web site, or RSS/Atom syndication feeds.
